Dear Kate,

Thank you for the update.

Regarding the bank charges, that is completely fine with us; we agree to leave them off for this order as advised by your Accounts Director.

Yes, please add the UPS carriage charges to the proforma invoice so the shipment is included.

Also, please ensure that our complete company and billing details are correctly mentioned on the proforma invoice:

- **Company Name:** SARL REAMED
- **Address:** Cité Ben Omar, Bt 13-A, N° 253, Kouba, Alger, Algérie
- **Phone:** +213 20 42 43 06
- **NIF (Tax ID):** 000216001711505
- **NIS (Statistical ID):** 000216260094841
- **RC (Trade Register):** 028001711516/00
- **Tax Article No.:** 16182722051
- **Bank Details:** CPA (Crédit Populaire Algérien), Agence 185 Riadh El Feth, Alger

We look forward to receiving the updated proforma invoice.

Best regards

Objet : Re: subject:combined Proforma Invoice Request - Oxygen & Flow Sensors / SARL REAMED

Good morning,

Thank you for your reply.

I have checked with our Accounts Director. It may be that there will be no bank charges that relate to this order. That is something we would know when the payment is received. I have been advised to *leave the bank charges off* and we can look into what to do about them **if relevant** for the next order.

Do you need me to add UPS carriage charges to the proforma invoice? or is still EXW?

Kind regards

Kate Griffiths

Dear Kate,

Thank you for your patience and sorry for the slight delay in getting back to you.

Regarding your question: please keep the carriage charges (UPS) as a separate line at the end of the invoice.

For the bank charges, kindly do **not** add them to the shipping line; instead, please distribute and prorate them directly into the unit prices of the items as requested previously.

We look forward to receiving the updated proforma invoice.

Good afternoon,

Thank you for your email.

Do you now want me to add the carriage charge (UPS) to your proforma invoice? if so, I can add the bank charges to that line.

I look forward to your reply.

Many thanks.

Kind regards

Dear Kate,

Thank you for your message.

We accept your conditions regarding the prices and the bank charges.

Please find attached a Word document containing the complete product table with the exact references, quantities, and our full company billing/banking details for the final proforma invoice.

Kindly ensure the following points are included in the proforma:

1. **Bank Charges:** Please distribute and prorate the total bank/handling charges directly into the unit prices of the items (no standalone bank fee line).
2. **Country of Origin (CoO):** Include a clear mention/column for the CoO for each item.
3. **Air Freight Shipping:** Please mention the air freight shipping charges as a **separate line at the end of the invoice** (not integrated into unit prices), added directly before the final total.

We look forward to receiving the final Proforma Invoice.

Kind regards,

Objet : Re: subject:combined Proforma Invoice Request - Oxygen & Flow Sensors / SARL REAMED

Good morning,

Thank you for your email.

I have checked with Ryan and we are unable to offer any reduction in price as we only have small margins on our distributor pricing.

Please could you let me know which item and the quantity that you require me to add to your proforma invoice?

Currently on the proforma invoice is:

0110023 R-23V x40
0110018 R-17V x40
0110049 R-49V x40
0110040 R-30V x40
0110019 R-17Vi x40
0110045 R-45V x40

I will remove the bank charges from your proforma invoice, **but I do need to say that we must receive the invoice total in our account, so you would need to collect all bank fees.**

I look forward to your reply.

Kind regards

Dear Ryan and Kate,

Please accept our apologies for the slight delay in getting back to you. We are currently in our holiday period and operating with a minimum service staff.

Overall, your prices are very reasonable and acceptable for us. However, regarding reference **0110040 (Viamed Oxygen Sensor R-30V)** priced at **\$70.00**, it is a bit high for our current project budget. If possible, could you please review and offer us a slight discount on this specific reference?

Additionally, following our review of the price list for the flow sensors, we would like to include them in our final order by choosing **Break 2** for our quantities.

Could you please issue the **final combined Proforma Invoice** incorporating:

- The oxygen sensors, including a slight discount on reference **0110040 (R-30V)** as requested.
- The flow sensors based on **Break 2** pricing.
- **Country of Origin:** Please ensure that a dedicated column or clear mention of the **Country of Origin (CoO)** is included for each product item on the invoice.
- **Shipping / Transport:** Please include the air freight shipping charges directly in the proforma invoice.
- **Important regarding bank charges:** As per Algerian banking and import regulations, separate bank charge lines (\$25) cannot be processed on their own. Therefore, please distribute or integrate these bank charges directly into the unit prices of the items (or inside the total net amount), so the invoice has no standalone bank fee line.

We look forward to receiving the final Proforma Invoice to proceed smoothly with our administrative and import files.

Best regards
