Hi Theodore

Historically we have stated 24 months for the R-47, the warranty is 15 months from shipment date. However, it is always better to put into service earlier.

For the OOM109 the generally stated shelf life is 6 months, the warranty is 9 months from shipment date.

There is a lot of confusion in the market place regarding shelf life. I can only assume that some manufacturers have issues with storage or are being very conservative. Some companies incorrectly use the 'egg timer' icon to try and indicate a 'put into use' by date. Strictly speaking this symbol is for expiry date.

In practice there may be a slight reduction in operational life if stored for say more than one year. As a general rule of thumb, most sensors revert to operational conditions when they are allowed to stabilize after being removed from their packaging...

Regards

Steve

Hi Steve,

Are you aware of any shelf life these may have?

Kind Regards,

Theodore Rusu, *Buyer*

Hi Theodore

Regarding the OOM204, you have been purchasing the Viamed badged version the R-47V, part number 0110047. We have plenty of these in stock.

You have also been purchasing the OOM109, part number 0110565. The delivery lead time for this should be about three weeks.

0110047 Oxygen Sensor R-47V £60.00 each EXW

0110565 Oxygen Sensor OOM109 £84.00 each EXW

Prices exclude VAT and carriage.

UPS delivery is £12.00

Kind regards

Steve

Hi Steve,

Please let me know if you have any OOM204 and OOM109?

If not, what is your lead time for these?

Kind Regards,

Theodore Rusu, *Buyer*
