8010010 long term storage tests, starting April 2017

Issue ID #93059

Date Created 19/Apr/2017

Issued To: Steve Nixon

Completed Status: Still Outstanding

Notes:

Added by Steve Nixon sent to Steve Nixon

The following have been shipped to Rebreather Lab for long term storage testing. In 12 - 18 months time we need to have them returned to us via our UPS account. The sensors then need to be forwarded to Christa Dumschat for analysis.

5 storage test sensors – Philippines:

RBL100469 to RBL100473.

These are standard production sensors.

25 storage test sensors – Thailand:

RBL100476 to RBL100500.

These are a mixture of sensors prepared and packaged differently.

I also have two standard production sensors for storage testing here at Viamed/VST. These can also be forwarded to Christa.

RBL100474 & RBL100475
