Hi Kate,

Yes please. Can we have a quote?

Thanks

Paul

Hi Paul,

Yes please, if you are happy that this is the correct sensor.

Kind regards

Kate Griffiths

Thanks Kate,

Do we need to raise a separate order for a replacement?

Thanks

Paul

Hi again Paul,

Please could you return the sensor to us quoting the reference **SRS69506**. We will then credit you for invoice RVM165186-1.

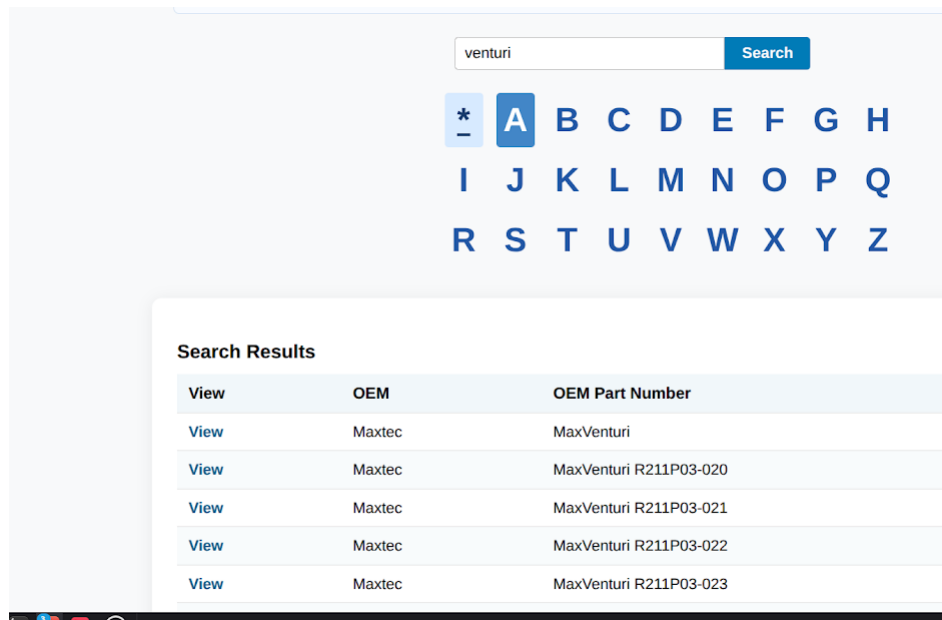

I believe the correct sensor for the Maxblend venturi device is part number 0110429 - MAX-250E.

There is a list of Max Venturi devices in our x-reference (link below), mostly it shows the part number above, which looks very similar to the one you are returning to us.

<https://www.viamed.co.uk/xref/>

If you type venturi into the search, it brings up a clickable long list.

I just want to make sure we send you the correct alternative sensor 😊

If you would like this sensor (0110429 - MAX-250E), I believe we would need a new PO in order to start again (as the other one will be refunded). **The price is £73.60, plus VAT.** Carriage is free. These are in stock.

I look forward to your reply.

Kind regards

Hi Paul,

Thank you for you email.

I just need to ask advice about this. I will reply as soon as I have the answer.

Many thanks.

Hi Kate,

Northampton General have received the sensor 0110454.

Unfortunately this has the wrong size electrical connector on the top of the cell – it's too small.

I had to open the packet to realise this!

How do we resolve this mistake!

Thanks

Paul

Subject: Maxblend cell

Hello Kate,

Can you give me a price & availability for O2 fuel cell for 0110454 for the Maxblend venturi device please?

Thanks

Paul
