Dear Ryan

We will offer to the tender the **VIAMED 0110049 Oxygen sensor R-49V** and not the lead free.

Please send a proforma invoice including freight. Customs will be handled locally by us

Please send a DATA SHEET or compatibility statement for the HAMILTON sensor and the VIAMED ISO. certification.

Do you have a CE mark for this item?

The COMPATIBILITY STATEMENT is a requirement for the reasons as I have explained in my previous email.

Regards

Nick

Hi Nick

Thank you for your email.

We can supply the following options:

Standard sensor:

0110049 Oxygen sensor R-49V = EUR €36 each EXW

Lead free sensor:

0110701 Oxygen sensor MLF-04 = EUR €77.50 each EXW

Both types are available from stock.

Kind regards

Ryan

Dear Ryan.

Looking for an O2 sensor for HAMILTON G5.

Which one do you suggest?

Is the ENVITEC OOM202 the correct one?

We are having a lot of pressure from OEM reps as they are pressuring the hospitals to not use compatibles as they refuse to service the units if they find compatible items (non authentic) on them.

The tender is for 10 units

Please inform price and availability.

Whatever brand you suggest we need the respective ISO etc documents.

Regards

Nick
