Intersurgical Ltd

Directive 93/42/EEC

on medical devices, Annex II (excluding section 4)

Issue 26

Detailed scope

Non sterile medical devices:

- **For Airway Management:** connectors, breathing filters, heat and moisture exchangers, heat and moisture exchanging filters.
- **For Anaesthesia:** Breathing systems, carbon dioxide absorbents, catheter mounts, connectors, breathing filters, heat and moisture exchanging filters, masks and attachments, monitoring and pressure lines and filters, reservoir bags, resuscitation systems and masks, tubing and attachments, valves - directional, positive end expiratory pressure, pressure limiting, and exhalation.
 - **For Critical Care:** breathing filters, breathing systems, catheter mounts, connectors, heat and moisture exchangers, heat and moisture exchanging filters, heated wire breathing systems and attachments, humidification chambers, lung volume recruitment systems, masks and attachments, monitoring and pressure lines and filters, oral care treatment - suction and irrigation toothbrushes and kits, resuscitation systems and masks, suction devices - tubing and wands, tubing and attachments, valves - directional, positive end expiratory pressure, pressure limiting and exhalation, venturi valves for oxygen therapy, electrically powered moisture condenser for breathing systems
- **For Oxygen and Aerosol Therapy:** connectors, masks and attachments, nasal cannulae, nebulisers and nebuliser systems, tubing and attachments, water traps.

Sterile medical devices:

- **For Airway Management:** airways, bougies and stylets, connectors, breathing filters, heat and moisture exchangers, heat and moisture exchanging filters.
 - **For Anaesthesia:** breathing filters, breathing systems, catheter mounts, connectors, heat and moisture exchanging filters, masks and attachments.
 - **For Critical Care:** breathing filters, breathing systems, catheter mounts, connectors, endotracheal closed suction systems, heat and moisture exchangers, heat and moisture exchanging filters, heated wire breathing systems and attachments, humidification chambers, suction devices - tubing, water for oral rinsing.
- **For Oxygen and Aerosol Therapy:** connectors.

Sterility aspects only - Restricted to the aspects of manufacture concerned with securing and maintaining sterile conditions

- **For Airway Management:** guedel airways.

Where the above scope includes class III medical device(s), a valid EC Design Examination Certificate according to Annex II (Section 4) is a mandatory requirement for each device in addition to this certificate to place that device on the market
