Morning Tom,

Please can you tell me if the part number is 50001-5 or 570001-5 which the customer needs?

We have neither of these in stock as we are still waiting for them to be delivered.

Kind regards  
Zoey

Good morning

Please see the order below from Stratford Dermotherpay.  
Is it possible to fulfil this before Wednesday as per the customer's request?

Kind regards

Tom

Hi Hugo

Thanks for this order. I will get this processed right away, the shipment should be with you either tomorrow or Wednesday.

Kind regards

Tom

Dear Tom

Could you send me:-

1 box of 24 suction bags 3000ml (Ref 57187)

1 x 5 BEAULI infiltration cannulae (2mm 655020-5) set

1 x Rapid WAL Cannula 3.8mm L 30cm (501125)

Hope you're well

Hugo

Tom

Off to Austria tomorrow so early Jan will be fine.

Thank you

Hugo

Hi Hugo

Thanks for this. I'll get the order shipped to you asap then you'll have it ready to go in January!

Hope you have a good Christmas.

Kind regards

Tom

Yes, it can be difficult to manage. I have seen some inventive use of towel clips to keep it out of the way and the weight at your hand down!

Good

It's just that the infiltration kit introducer is so long, if you're doing the face?

Yes. Or you can infiltrate with the Bodyjet in the normal way with the pump pressure set quite low.

So

Can I infiltrate manually and suck with the cannula?
