Missing images in Export Data

Issue ID #76990

Date Created 16/Aug/2016

Issued To: Derek Lamb

Completed Status: 31 Jan 2018

Notes:

Added by Steve Hardaker sent to Catrin Hird

I noticed when exporting the GHX stock group, there are quite a few missing images that appear in the website but not in the stock group exported data.

If you select the groups and use the Check the Images function (which is now working, yay!), you will see what I mean: there are quite a lot of the new O2 sensors missing, some SpO2 sensors, most of the Posey range, resuscitation accessories and various others.

Please can you take a look and see which ones can be updated? Thanks.

Next Action Changed From Catrin Hird To Derek Lamb The images are selected as primary images on the website, it must still be an issue with Derek that its not pulling the information out correctly. I've changed user to DL to see if he can look into it.

Check Stock Price Check Page:

Intrastats: Stock - stock analysis - Price Check

List is being populated by stock with sales pricing. Would it be better to use sales price feature of Opera?

If not, then edit and review over the next few months.

Masimo stock 004XXX stock. Stock with zero stock quantity revert the GBP price back from the sales to the list price.

Disposable hoods 231XXXX. Change all stock back to the list prices.

Blue Diamond stock 271XXXX. Stock with zero stock quantity revert the GBP price back from the sales to the list price.

Reusable acrylics stock PPXXXX. Stock with zero stock quantity revert the GBP price back from the sales to the list price.

Is there a way to highlight whether the stock on this list has sellable stock? If it can highlight this it is an easier way of working out if stock needs to be reverted back to original price or not?

28 Aug 2018 Catrin Hird

Masimo stock has been amended, all stock with no stock has been reverted back to list price (from L)

Disposable Hoods have been reverted back to list price and removed from eBay.

Blue Diamond - no sales since price has changed. Only prices were changed for items with stock therefore have not been updated since. Checking sales on a regular basis for updates. Products listed on eBay (had one enquiry this weekend for a number of items but that is all since they were listed.)

Acrylics stock, zero stock products prices have been reverted back to list price. Currently listed on eBay - let me know should you wish for these to be removed.

Prices are currently updated via Special Pricing and UK price list - happy to continue this way as I'm not sure how "sale" pricing shows in Intrastats - would it cause more confusion?

0014895/0014896 front screen price updated as missed when quantity discount prices were updated.

2310020, 231005 still being displayed.
