

Risk assessment

Company name: Viamed Ltd

Date of risk assessment: 16/5/19

What are the hazards?	Who might be harmed and how?	What are you already doing?	Do you need to do anything else to control this risk?	Action by who?	Action by when?	Done
Burning waste wood and garden material in incinerator	Josh is the only one attending and he is keeping people away from the area. He will also be extinguishing the fire when he leave for the day.	Gloves, certified incinerator, water readily available, keeping others well back, discussions on safety and risk with Josh general health and safety good practice. A safe location to carry out the work and ensuring it is not near any flammable areas.	Monitoring by supervisor, checking fire is out fully after Josh has left.	Josh, supervisor Cathy to monitor and Manager Helen	From now on 16/5/19	xx/xx/xx on going
						* hint tab here for new line

You should review your risk assessment if you think it might no longer be valid (eg following an accident in the workplace or if there are any significant changes to hazards, such as new work equipment or work activities)
