

Oxygen Monitoring

Cross Reference of Discontinued Teledyne Models

Discontinued Teledyne Oxygen Analyzers		Alternatives		
Part number	Model	Comments	Part number	Model
0111230	AX300	Direct equivalent	0111261	Maxtec MAXO2+AE (battery powered: 2 x AA)
0111232		Additional analyzers to consider	0111262	Maxtec MAXO2+AE Short cable version, (battery powered: 2 x AA)
0111233			0111260	Maxtec MAXO2+A internal sensor (battery powered: 2 x AA)
0111234			0111250	Maxtec HANDI+ Medical For spot checking applications, (integrated battery)
			0111275	Envitec OxiQuant S CE marked, but not for Medical. Suitable for engineering & laboratory use. (integrated battery)

Discontinued Teledyne Oxygen Monitors		Alternatives		
Part number	Model	Comments	Part number	Model
0111235	MX300	Direct equivalent	0111263	Maxtec MAXO2 ME (battery powered: 4 x AA)
0111237		Additional monitors to consider	0111276	Envitec MySign O (rechargeable battery)
0111238			0111277	Envitec MySign O (rechargeable battery & mains powered)
0111239			0111265	Maxtec Ultramax Ultrasonic sensor, ideal for checking oxygen concentrators. (battery powered: 2 x AA)
