SCOPE

Company /		
ISO Section	Criteria of ISO Section	Auditor Comments / Issues
VST Ltd	Infrastructure	155465
	The organization shall determine, provide and maintain the infrastructure	
5 7.1.3	necessary for the operation of its processes and to achieve conformity of	
	products and services.	
	NOTE Infrastructure can include:	
	a) buildings and associated utilities;	
	b) equipment, including hardware and software;	
	c) transportation resources;	
TYOTE T . 1	d) information and communication technology.	
VST Ltd	General The state of the state	
	The organization shall ensure that externally provided processes, products	
5 8.4.1	and services conform to requirements. The organization shall determine the controls to be applied to externally	
	provided processes, products and services when:	
	a) products and services from external providers are intended for	
	incorporation into the organization's own products and services;	
	b) products and services are provided directly to the customer(s) by external	
	providers on behalf of the organization;	
	c) a process, or part of a process, is provided by an external provider as a	
	result of a decision by the organization.	
	The organization shall determine and apply criteria for the evaluation,	
	selection, monitoring of performance, and re-evaluation of external	
	providers, based on their ability to provide processes or products and	
	services in accordance with requirements. The organization shall retain documented information of these activities and any necessary actions arising	
	from the evaluations.	
VST Ltd	Type and extent of control	
	The organization shall ensure that externally provided processes, products	
5 8.4.2	and services do not adversely affect the organization's ability to consistently	
	deliver conforming products and services to its customers.	
	The organization shall:	
	a) ensure that externally provided processes remain within the control of its	
	quality management system;	
	b) define both the controls that it intends to apply to an external provider and	
	those it intends to apply to the resulting output;	
	c) take into consideration: 1) the notantial impact of the externally provided processes, products and	
	1) the potential impact of the externally provided processes, products and services on the organization's ability to consistently meet customer and	
	applicable statutory and regulatory requirements;	
	2) the effectiveness of the controls applied by the external provider;	
	d) determine the verification, or other activities, necessary to ensure that the	
	, and the state of

	externally provided processes, products and services meet requirements.	
VST Ltd	Information for external providers	
ISO9001:201	The organization shall ensure the adequacy of requirements prior to their	
5 8.4.3	communication to the external provider.	
	The organization shall communicate to external providers its requirements	
	for:	
	a) the processes, products and services to be provided;	
	b) the approval of:	
	1) products and services;	
	2) methods, processes and equipment;	
	3) the release of products and services;	
	c) competence, including any required qualification of persons;	
	d) the external providers' interactions with the organization;	
	e) control and monitoring of the external providers' performance to be	
	applied by the organization;	
	f) verification or validation activities that the organization, or its customer,	
	intends to perform at the external providers' premises.	
VST Ltd	Control of production and service provision	
	The organization shall implement production and service provision under	
5 8.5.1	controlled conditions.	
	Controlled conditions shall include, as applicable:	
	a) the availability of documented information that defines:	
	1) the characteristics of the products to be produced, the services to be	
	provided, or the activities to be performed;	
	2) the results to be achieved;	
	b) the availability and use of suitable monitoring and measuring resources;	
	c) the implementation of monitoring and measurement activities at	
	appropriate stages to verify that criteria for control of processes or outputs, and acceptance criteria for products and services, have been met;	
	d) the use of suitable infrastructure and environment for the operation of	
	processes;	
	e) the appointment of competent persons, including any required	
	qualification;	
	f) the validation, and periodic revalidation, of the ability to achieve planned	
	results of the processes for production and service provision, where the	
	resulting output cannot be verified by subsequent monitoring or	
	measurement;	
	g) the implementation of actions to prevent human error;	
	h) the implementation of release, delivery and post-delivery activities	
VST Ltd		
	The organization shall ensure that outputs that do not conform to their	
5 8.7.1	requirements are identified and controlled to prevent their unintended use or	
	delivery.	
	The organization shall take appropriate action based on the nature of the	
	nonconformity and its effect on the conformity of products and services. This	
	shall also apply to nonconforming products and services detected after

	delivery of products, during or after the provision of services. The organization shall deal with nonconforming outputs in one or more of	
	the following ways:	
	a) correction;	
	b) segregation, containment, return or suspension of provision of products	
	and services; c) informing the customer;	
	d) obtaining authorization for acceptance under concession.	
	Conformity to the requirements shall be verified when nonconforming	
	outputs are corrected.	
VST Ltd	Management review inputs	
	9.3.2 Management review inputs The management review shall be planned	
5 9.3.2	and carried out taking into consideration:	
	a) the status of actions from previous management reviews;	
	b) changes in external and internal issues that are relevant to the quality	
	management system;	
	c) information on the performance and effectiveness of the quality	
	management system, including trends in:	
	1) customer satisfaction and feedback from relevant interested parties;	
	2) the extent to which quality objectives have been met;	
	3) process performance and conformity of products and services;	
	4) nonconformities and corrective actions;	
	5) monitoring and measurement results;6) audit results;	
	7) the performance of external providers;	
	d) the adequacy of resources;	
	e) the effectiveness of actions taken to address risks and opportunities (see	
	6.1);	
	f) opportunities for improvement.	
Viamed Ltd	Quality management system	
	For each quality management system process, the organization shall:	
16 4.1.5	When the organization chooses to outsource any process that affects product	
	conformity to requirements, it shall monitor and ensure control over such	
	processes. The organization shall retain responsibility of conformity to this	
	International Standard and to customer and applicable regulatory	
	requirements for outsourced processes. The controls shall be proportionate to	
	the risk involved and the ability of the external party to meet the	
	requirements in accordance with 7.4. The controls shall include written	
	quality agreements.	
Viamed Ltd	Design and development outputs	
	Design and development outputs shall:	
16 7.3.4	a) meet the input requirements for design and development;	
	b) provide appropriate information for purchasing, production and service	
	provision;	
	c) contain or reference product acceptance criteria; d) specify the characteristics of the product that are essential for its safe and	
	a) specify the characteristics of the product that are essential for its safe and

	proper use.	
	The outputs of design and development shall be in a form suitable for	
	verification against the design and development inputs and shall be approved	
	prior to release.	
	Records of the design and development outputs shall be maintained (see	
	4.2.5).	
Viamed Ltd	Purchasing process	
ISO13485:20	The organization shall document procedures (see 4.2.4) to ensure that	
16 7.4.1	purchased product conforms to specified purchasing information.	
	The organization shall establish criteria for the evaluation and selection of	
	suppliers. The criteria shall be:	
	a) based on the supplier's ability to provide product that meets the	
	organizations' requirements;	
	b) based on the performance of the supplier;	
	c) based on the effect of the purchased product on the quality of the medical	
	device;	
	d) proportionate to the risk associated with the medical device.	
	The organization shall plan the monitoring and re-evaluation of suppliers.	
	Supplier performance in meeting requirements for the purchased product	
	shall be monitored. The results of the monitoring shall provide an input into	
	the supplier re-evaluation process.	
	Non-fulfilment of purchasing requirements shall be addressed with the	
	supplier proportionate to the risk associated with the purchased product and	
	compliance with applicable regulatory requirements.	
	Records of the results of evaluation, selection, monitoring and re-evaluation	
	of supplier capability or performance and any necessary actions arising from	
	these activities shall be maintained (see 4.2.5).	
	Purchasing information	
	Purchasing information shall describe or reference the product to be	
16 7.4.2	purchased, including as appropriate:	
	a) product specifications;	
	b) requirements for product acceptance, procedures, processes and	
	equipment;	
	c) requirements for qualification of supplier personnel;	
	d) quality management system requirements.	
	The organization shall ensure the adequacy of specified purchasing	
	requirements prior to their communication to the supplier.	
	Purchasing information shall include, as applicable, a written agreement that	
	the supplier notify the organization of changes in the purchased product prior	
	to implementation of any changes that affect the ability of the purchased	
	product to meet specified purchase requirements.	
	To the extent required for traceability given in 7.5.9, the organization shall	
	maintain relevant purchasing information in the form of documents (see	
	4.2.4) and records (see 4.2.5).	
Viamed Ltd	Verification of purchased product	
	The organization shall establish and implement the inspection or other

16 7.4.3	activities necessary for ensuring that purchased product meets specified purchasing requirements. The extent of verification activities shall be based on the supplier evaluation results and proportionate to the risks associated with the purchased product. When the organization becomes aware of any changes to the purchased product, the organization shall determine whether these changes affect the product realization process or the medical device. When the organization or its customer intends to perform verification at the supplier's premises, the organization shall state the intended verification activities and method of product release in the purchasing information. Records of the verification shall be maintained (see 4.2.5).	
Viamed Ltd	Cleanliness of product	
ISO13485:20 16 7.5.2	The organization shall document requirements for cleanliness of product or contamination control of product if:	
	a) product is cleaned by the organization prior to sterilization or its use;	
	b) product is supplied non-sterile and is to be subjected to a cleaning process	
	prior to sterilization or its use;	
	c) product cannot be cleaned prior to sterilization or its use, and its	
	cleanliness is of significance in use;	
	d) product is supplied to be used non-sterile, and its cleanliness is of	
	significance in use;	
	e) process agents are to be removed from product during manufacture.	
	If product is cleaned in accordance with a) or b) above, the requirements	
	contained in 6.4.1 do not apply prior to the cleaning process.	
	contained in 0.4.1 do not apply prior to the cleaning process.
