Dear Hasan,

Thank you for your email.

Please be advised that due to very high demand, we are out of stock of the R-23V sensors and the lead time for more will be 6 weeks.

The unit price is \$ 43.75 EXW. If you would like an official quotation, please let me know.

Please note that payment will need to be made in advance to secure the stock required. This is due to a large number of back orders from other customers.

Kind regards

Sarah Walton
