Dear Steve,

many thanks for your support and help in these troubled times.

Please find attached our PO for 10 packs. We will place two further calls within the next 2 days.

We need fastest delivery, so I guess best choice would be UPS Express, Kerstin please confirm.

(EXW or by UPS Standard or **UPS Express Saver**.)

Have a good week ahead.

With kind regards,

Felix

i.A. Felix Krellenberg

Betreff: [External] URGENT Oxygen sensor T pieces (blue)

H Jessica

If you wish to order, then please use the following.

Part number: **0120402**

Description: **T piece (pack of 100)**

Price EXW Viamed: **€188.00** (or \$200.00)

NOTE: Envitec to apply CE, covered by oxygen sensors or oxygen analyzers/monitors.

FYI a quantity of say 5000 to 10000 takes 2-3 weeks to be moulded.

If you wish we can ship a small quantity of say 500 - 1000 (5 - 10 packs) straight away. We have a good stock, but I need to ensure that we have sufficient coverage for our current projects. We may be able to release more, say next week.

If you order a high quantity please advise if part shipments are needed/acceptable.

Please state whether you wish us to ship **EXW** or by **UPS Standard** or **UPS Express Saver**.

Sarah/Cathy - If Jessica/Felix places an order in the morning, can we please try and ship straight away.
