Ryan hi, thanks for your help with the below sensor R-17VAN earlier this month. It has reached the engineer who needed it and he is very grateful. I wish to send another one. It's not so urgent now but if it could go to the below address, Diamedica, in a few days I would be most grateful. In short can you just repeat the order in the same way. I will phone you this morning and make a Visa payment as I did before.

Thanks,

Ray Towey

Ryan, thanks for your fast response. I wish to make a purchase today as it is urgent. I would like it to be sent by fast courier to this address below. I attach a page from your web. I don't not see the exact code, R-17VAN so I will phone you so that you can clarify and I can then pay by my Visa over the phone.

Thanks,

Ray

Dear Dr. Ray Towey

Thank you very much for your email. The sensor you require is the R-17VAN and we have them available from stock.

The total cost including postage would be £60. If you would like to proceed with an order, you can place your order on our website using paypal or credit card.

Alternatively you can give me a call on my mobile number and I can take your details over the phone.

Please let me know if you have any questions.

Best regards

Ryan

Hi, can you help me with getting a cell for the attached oxygen analyser VN202 Mark II?

Thanks,

Dr.Ray Towey
