Dear Ryan ,

I order 3000 pcs R-22MED delivery in May for Shenzhen supplier. They are happy about this model.

Send me the PI , I will pay tomorrow.

Jenny

Hi Pedro

I am very pleased your order has arrived okay, thank you for your business.

With regards to May, if you are wanting the 1500x R-22MED for your customer in Shenzhen, then this is currently okay, but I would need your order in the system as soon as possible. If you need more, then please let me know and I will see what we can do, but I would suggest we act quickly.

T7 - Teledyne ran out of stock of one of the critical parts. An alternative has been sourced, but requires thorough testing. Unfortunately, I can not give any delivery dates on these sensors, but we are unlikely to see any before the start of July.

MAX-250B - We are unlikely to get any reasonable quantity of these, even small orders are taking 6 weeks.

I will await your response.

Best regards
