

Application:	Medical
Range:	0-100% O <sub>2</sub>
Sensor:	Polarographic (POL) C-4 Sensor with Type "C" Electronic Module
Response Time:	97% of final reading in less than 20 seconds at room temperature (23 ±3°C)
Life Expectancy:	6 months in 100% O <sub>2</sub> at 25°C
Warranty:	6 months from date of shipment
Module (Sensor) Output:	-600 mv to -1.5 volt in 100% O <sub>2</sub> at 23 ±3°C
Accuracy:	±3% oxygen at constant temperature, using 100% O <sub>2</sub> as the calibration gas
Operating Temperature Compensation:	15 to 40°C: ±5% of reading or ±3% oxygen, whichever is greater  0 to 40°C: ±5% oxygen
Storage Temperature:	0 to 40°C

**POLAROGRAPHIC**
