Dear Dado

Thank you very much for your order.

I am sorry to inform you that we do not currently have any VN202 analysers available, as all available stock and production is being prioritised for supply to the hospitals for use on ventilators for COVID-19 patients.

I am very sorry for the inconvenience, please can you let me know which one of the following options you would prefer to take:

- 1) We can supply an alternative device, the TEK-OX. This is the same sensor and electronics as the VN202. The only difference being that the sensor is within the device, as opposed to the VN202 having an external sensor. I have attached a leaflet for your reference.
- 2) You can wait until we have VN202 available, but unfortunately, I cannot give you any estimated time on when this will be.
- 3) Cancel your order

I will await your reply and please let me know if you have any questions. If you would like to speak to me, please call my mobile, as our office number is not currently being answered.

Best regards

Ryan
