Hi Sarah,

i would like to order one piece of the T-7 oxygen sensor:

Part number 0110057  
Product name : T-7 Oxygen Sensor  
GTIN / EAN13 : 5051826000830

For use with the Teledyne TED60T, TED191, TED200T7.

Offering long life and fast response, the high quality T7 replacement sensor is specifically designed for medical use, this sensor also exceeds the demands of a modern operating theatre with added protection against long term effects of nitrous oxide. Best of all, the T7 creates additional savings while providing superior quality.

|                     |                     |
|---------------------|---------------------|
| Part Number         | 0110057             |
| Model Number        | T-7                 |
| Main OEM            | Teledyne            |
| OEM Sensor Part No. | A51327              |
| Output Connector    | Phone socket, 3 way |
| Sensor Output       | 0.4 ± 0.1 µA        |
| Response Time       | < 6 seconds         |
| Warranty            | 12 months           |

Could you just tell me the price to make an offer to one of our customers. (you can ship it anyway)

Regards,

Erik
