Dear Khanh Thanh

Thank you very much for your enquiry via our website.

We have a small stock of R-26MED and we can have more manufactured, but this could take while. Is the size of the sensor important?

We have regular supplies of the R-17MED, which is the same output specification as the R-26MED, but has a larger body diameter.

I have attached the specifications for both sensors.

I will await your reply.

Best regards

Ryan
