Hi Guido

Yes, it is the Teledyne version, same output and connector.

Best regards

Ryan

Good Morning Ryan!
The s-1 is really the same with same plug?

Hi Guido

I have amended your address.

We are having some issues with stock due to all sensor manufacturers prioritising on medical sensors for the pandemic.

We are completely out of stock of the R-41V and it is unlikely that I will have any more for at least 3 months.

The R-17VAN is also out of stock, I hope to have more in the next few weeks. I have a small number of Teledyne R-17S, which is effectively the same sensor, would you accept these?

I am really sorry for the inconvenience. I will await your reply on how we should proceed.

Best regards

Ryan
