Understood regarding the sensors for Christa. No need for a P.O. I'll just send them to you.

If Maik can rework the sensors then that would be great. I think they need 140 for overdue services and some for urgent Ministry of Defence orders.

Hi Steve,

just got an answer from Christa regarding the Gambert sensors:

3 of each: MLF04, ML 350

Maik is also asking me if we should rework the JFD sensors you sent us so that you get sensors asap?

Jessica
