Hi Noman

Thank you.

We are expecting some R-49V to be available next week, but I would strongly suggest you place your order as soon as possible, as the demand is high and orders are going out in the same order they come in.

Best regards

Ryan

Hi Noman

Thank you.

The only Mainstream Capnograph model we now supply is for VET (animal use). We are working on a new model for use on humans, but it is likely to be a year or more before this is available.

Best regards

Ryan

Dear Noman

Thank you very much for your email. We would be happy to supply you, but we are having some difficulties with certain models of O2 sensors at the moment, due to the excessive demand.

The R-49V is currently out of stock, we are expecting some at the end of this month.

Please find our distributor pricing below:

R-49V - 0110049 = USD \$37.75 each EXW.

Please let me know if you have any questions.

Kind regards

Ryan
