Subject: VSA - New order (Re: Order 05062020kg Tracking 1Z9W96386878232446)

To: <ryan.swaine@viamed.co.uk>

Dear Ryan,

Thank you for the information,
I would like to place an order for:

25 pcs of R22-AV (3pin molex), and
25 pcs of R17-A (phone jack)

What is your current availability and when will you be able to dispatch them?

Best regards,

John Antasouras
Director

Dear John

I hope you are well, please accept my reply.

All the sensor manufacturers are currently prioritising for the increased demand for medical sensors over and above industrial and automotive, so there are going to be delays in supply.
At this point in time, we do not know how long these delays will be, as there are still countries trying to upscale their medical equipment for the battle against Covid-19 and even deliveries of Medical sensors are delayed.

We are still receiving some automotive sensors, but they are arriving sporadically and in small shipments. I believe Teledyne are putting a number through production in and amongst their medical production.

I would strongly suggest that you plan for the next 4+ months and place your orders accordingly. We are shipping customer orders in the same order that we receive them.

Please let me know if you have any questions or concerns. If you would prefer to speak with me, then please call my mobile, as our office lines are not being monitored.

Best regards

Ryan

Dear Kate,

thank you for processing my order.
In your previous email you mentioned that you do not have free stock of the sensors.
Does this mean that for our next order we will have to cater for an 8 week delay?

Best regards,

John Antasouras
