Hi Ryan
I'm still waiting for the VN202.. ref as usual.. 2 units with 6 extra sensors that's will be enough if I receive them at the end of this month..
Use normal postage..cheapest.
When it's ready.. let me know.. My Visa business has been updated..
Stay safe
Best regards
Francis

Hi Francis

I hope you are well.

We aim to have VN202 for the end of this month, now that we have fulfilled our obligations with the UK hospitals. Unfortunately we are having some problems obtaining sensors, specifically the R-17VAN, which is used with the VN202. Sensor production is still prioritised towards medical sensors and this is unlikely to change for a while, although there are plans to increase production output, so we are keeping our fingers crossed.
I do not yet have any confirmed date, so it could another month or two before we have them available. Please can you let me know if you still require the VN202 and if you still require any additional R-17VAN and if so, how many do will you need?

Best regards

Ryan
