Thank you Daniel

I am very sorry to say that we have completely run out of stock of the TEK-OX analysers, I think it must be due to the fantastic weather, as this is the first time this has happened.

We are expecting another batch to be ready in approximately one week. We will ship your order as soon as they are ready.

Best regards

Ryan

Dear Daniel,

Thank you for your order.

You have ordered the Tek-Ox with manual switch off, perhaps it appeared to be from our price list only this model that has discountst. We have corrected the price listed to show that either model has the quantity discount. Please see attached.

Can you confirm which model you want. The Auto switch off model is available from stock but delivery of the manual switch off model is about one week.

Regards

Jean Lamb

Good morning Daniel,

Thank you very much for your email order.

I am very sorry but we are having supply issues at the moment.

With regards to new R-17VAN sensors and R-22VAN Senors, we are unfortunately out of stock. O2 sensor production has been prioritised towards medical sensors and so our stock of scuba sensors has been delayed. The latest news is that we are scheduled sometime in September, but unfortunately the schedules are changeable at the moment due to medical requirements. The Tek-ox analysers require R-17VAN sensors.

Would you like to put this order on backorder?

We are very sorry for any inconvenience this may cause, your time and patience is greatly appreciated.

Kind regards

Gail Bell
