Good morning Mark,

Thank you for your enquiry via our website.

Unfortunately, we do not have a distributor in Australia.

I would be happy to send you a proforma invoice detailing price, shipping etc.

To do so, I would need your invoice and delivery addresses in order to set up a new account for you.

The price EXW of the R-22AV oxygen sensor is \$53.75. **We have a price increase to \$55 on August 23rd.**

This item has an approximate lead time of 4-6 weeks. The situation with automotive sensors is currently changing all the time, with priority being given to the production of medical oxygen sensors, so I apologise if this lead time changes.

Please let me know if I can be of any further assistance.

Many thanks.

Kate Griffiths

Please note: Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will not be answered, but emails will. Orders may take longer to process but we aim to continue to operate and serve our customers as best we can.
