Please find attached a proforma invoice.

Please be aware that the unit price for the R-17MED has increased to \$34.50. Also, can you advise which shipment company you will be using?

Hello Sarah,

Our customer has responded.

Please reserve the 50 x R-24 Med for us.

How many of the PSR-11-75KE4 would you be able to spare us from your stock on hand?

We place our order as soon as we have the quantity of PSR-11-75KE4 available.

Kind regards,

Fanie Muller

Hello Fanie,

Apologies for the delay. I needed to ask a colleague for some help due to not recognising that part number. If it is PSR-11-75KE4, then it is our part number 0110433. These are \$84.25 per unit EXW. We do not have enough stock available at the moment, however we have more coming in mid October.

If you require any further information, please let me know.

Kind regards

Hi Fanie,

Hope you and your colleagues are all well.

We currently have enough stock of the R-24MED sensors, however we do have proforma invoices on our system awaiting payment that will wipe out the stock we have. If this is a definite order, please let me know and I will arrange for 50 units to be saved for you. The unit price is \$36.00 EXW.

Please can you advise if it is the MAX-250K with DC or Panduit that you require?

Kind regards
