Hi Team,

How are you all?

I just want to know, did any other companies from Bahrain ,contacted you for the quote on oxygen sensors R17, R23V ? because these sensors are promoted from our company. If possible ,could you please let them know that we are promoting these sensors in Bahrain. Because it will be a problem for us in future with same item, manufacturer, brand etc with different prices. Since 2017 I am purchasing these from Viamed.

Thankyou

Divya
