Thank you for the two new orders Jan:

400 for January 2021
400 for February 2021

I'm hoping to clear your current back orders before the end of November (COVID permitting).

12 sensors were missing from the ones that needed to be relabelled. Can I assume that you used them?

Two batches are now going through final QA, we may be able to ship some tomorrow (probably Monday).

Batch 1) 100 sensors
Batch 2) 217 sensors

Batch 3) 100 should also be completed next week

Steve

Hi Steve.

Yes absolutly at least 400 in January Febuary will do.

Thinking about the situration now do you think its posibe to have the backorder cleard out until december christmas time.

Kind regards

Jan Petersen

Good evening Jan

If the COVID situation regresses we should think about your requirements for January, February, March.

Could I assume that your possible requirement will be similar to last year: 400, 400, 600?
