Hi,

I hope this finds you well, this is an interesting one Steve H was involved with (thank you Steve, you have re-united an old friend). This is about monitoring elephants flying (not under their own power) to Australia!! Poor things.

Please give me an end user and our price for the following so I can get an order on the system. There is an element of urgency as they are needed for a 36 hr long case in 6 days time. . . . and I need to get an order number from them as well.

I will also ask that you drop ship direct to the client so we can avoid any delay (I'll send you the paperwork) if you would please?

The parts are - 4420825 - Sampling line with Luer Lock Male Connection, box of 25. Short-term use (up to 24 hours)

- 4420826 - Sampling line with Luer Lock Male Connection, box of 25. Long-term use (up to 72 hours)

Many thanks

Kind regards

Mike
