Hello Zoey,

I hope everything is going as well as possible for you.

We would like to order 150 oxygen sensor code 0110182, and want to know if you have it in stock, and also if the International shipments are subject to specific conditions.

Cordialement 

Kheira SAADANE

Dear Kheira,

Thank you for your email.

The price for 150 x 0110182 sensors are \$22.90 each.

We do not have any R-22AVG Sensors in stock at the moment and the lead time could be 6-8 weeks from the date of payment being received.

Unfortunately, over the past few weeks supply chain resources have been directly affected by COVID19. The worldwide demand for automotive sensors is very high, but please be assured that over the next few weeks we will be working on reducing the backlog of orders for automotive sensors and we endeavour to back on a planned production schedule very soon. The increase in demand is likely to continue for months ahead rather than weeks.

Would you like me to make a proforma for you?

If you have any further queries, please do not hesitate to contact me.

Kind regards

Zoey Teal

Please note: Viamed is now enacting a coronavirus contingency plan to allow sales and admin Staff to work from home, and I am now working remotely. Telephone calls to the main office will not be answered, but emails will. Orders may take longer to process but we aim to continue to operate and serve our customers as best we can.

Yes, I need your proforma invoice to make an order.
Also, don't forget to specify the origin of goods, the weight and the terms of payment
