Dear Kate,

We are two sister companies. Lemon Medical GmbH and Medical Equipment Europe.

So, for this quotation, please make it in the name of Medical Equipment Europe GmbH.

Cordially,

Mit freundlichen Grüßen aus Hammelburg / With best regards from Hammelburg /

Betreff: Re: Oxygen Sensor request

Good afternoon Brahim,

Thank you for your email. I will be happy to send you a quotation or proforma invoice for items 0110080 and 0110081.

Am I correct that you are a separate company to Lemon Medical please?

If so, I would need to set up a new account for you. If you are a separate company, I would need your delivery and invoice addresses.

I await your reply.

Many thanks.

Kind regards

Kate Griffiths

Please note: Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will not be answered, but emails will. Orders may take longer to process but we aim to continue to operate and serve our customers as best we can.

Dear Ryan,

Thank you for your feedback.

Could you please send me the quotation for this sensor with his board?

Cordially,

Dear Brahim

Thank you very much for your email.

We would be very happy to work with you on your new project, can I assume that you need breath by breath measurements? If so, we can supply you with both the UFO sensor and the PCB that is required to run the ultra fast O2 sensors.

Please find some information attached.

If the UFO sensors look like they are going to be suitable for your requirements, then please let me know what you think your requirements are likely to be and we can give you a quotation.

Best regards

Ryan

Dear Manager,

We are Medical Equipment Europe GmbH (Lemon Medical Sister Company), a company that produces and develops products for lung-function, we sell our devices worldwide.
At the moment we are working on a new project that requires fast response O2 Sensor, your products look very interesting for us.

Is there a way to get a sample for testing, and what are the general prices for this O2 Sensor?

Thank you and Kind Regards.
