Afternoon Steve,

We have a further three faulty Oxygen Cells, from yourselves. The serial numbers are:-

- 101358, slow reacting and will not calibrate.
- 101494, failed with no output.
- 101646, failed with no output.

I will have these units boxed up and returned to yourselves for further investigation. Please forward any internal investigation findings and corrective actions to myself or Jim McKay. I appreciate your assistance with this.

Regards, Jamie Tough.
