Good morning Daniel,  
  
Thank you for your reply.

The oxygen sensor you need is the R-17MED, 0110017. The price breaks are as follows:

|                  |                  |                     |                           |
|------------------|------------------|---------------------|---------------------------|
| 1 = £ 42.00 each | 2 = £ 38.00 each | 3-10 = £ 36.00 each | 11 or more = £ 34.00 each |
|------------------|------------------|---------------------|---------------------------|

Carriage is free for medical oxygen sensors and all prices are excluding VAT.

I don't think you have bought from us before, so please could I ask for your delivery and invoice addresses in order to set up a new account for you and I can then issue you with a proforma invoice.

We accept payment by bank transfer. At the moment we are working remotely so it's not as quick as usual for us to accept credit card payments, but we can do so if you need us to.

Many thanks.

Kind regards

Kate Griffiths

Good morning Daniel,

Thank you for your email.

Are you able to tell me which oxygen monitor you have, or perhaps the serial number? I can then ensure I reply with the correct information.

It will be tomorrow morning when I next reply.

Many thanks.

Kind regards

Kate Griffiths

Morning Viamed.

I've been given your contact details by Simon at Lamboo. We have a viamed oxygen monitor for our MRI scanner room but we need some replacement oxygen sensors as I believe they only last for a period before needing replacing.

Would you be able to let us know if we are able to get hold of 4 of these and how much that would cost? If you are able to quote us for this I can sort out the payment as we need these asap.

Thanks

Daniel Anderson
