You can give them eur end user and please ask them how often they are likely to need them

Ryan Swaine, Yesterday at 12:27

Morning Ryan - FYI they have responded with how often - "To your other question, how often I need units. I will make a survey with my clients to investigate the status of their devices to be able to provide you with a forecast for 2021. 11 is now the initial need, and depending on what I find out, I might order one more batch this year."
