Hi Ryan,

forgive my late reply but i have had problems that kept me away from work.

In this case I would like to order 20 oxygen cells.

To answer the question I confirm that they are not for rebreather use but are applied in an instrument that stands out of the water.

Let me Know

Best Regards

Francesco

Dear Francesco

Thank you very much for your email, please accept my reply on Jean's behalf.

I am pleased to inform you that we have the R-22VAN available from stock and the trade price is GBP £35 each EXW.

Please can I check that these sensors are for surface use, as they are not suitable for use in rebreathers?

Please can you provide me with your delivery/invoice address and company VAT number, so I can set you up on our system and provide you with a proforma invoice?

I look forward to hearing from you.

Best regards

Ryan
