Hello Kate:

Quote me 1 mx300 with the price you gave me of \$ 450 and about 10 R17 MED teledyne sensor.

Regard.

Good afternoon Alan,

Yes, we have some MX-300i in stock (0111235) currently.

Please let me know if I can be of any further assistance, I will next be in the office on Monday.

Many thanks.

Kind regards

Kate Griffiths

Please note: Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will not be answered, but emails will. Orders may take longer to process but we aim to continue to operate and serve our customers as best we can.

Good morning Alan,

Thank you for your enquiry. The R-17MED are currently in stock, but selling fast as you can imagine.

Please let me know if you require a proforma invoice.

Many thanks.

Kind regards

Kate Griffiths

Good afternoon Alan,

Ryan Swaine has said we can offer you distributor pricing. Therefore, the MX300-i would be \$450 each. This item is in stock currently.

Unfortunately, we do not have the stock of the R-17MED to ship to you in a few days.

Please let me know how you would like me to proceed.

Many thanks.

Kind regards

Kate Griffiths

Dear Kate:

Can you give me a discount for an MX-300 environmental oximeter unit?

Do you have environmental oximeter mx-300 and sensor for delivery in a few days?

If so, please make me a proforma for 1 MX-300 environmental oximeter and 8 R17 MED sensors and send me the data for bank transfer

Best regard.

Asunto: Re: oximetro ambiental

Good morning Alan,

Thank you for your enquiry.

I have asked our Export Manager Ryan Swaine if he has heard that the MX-300i will be discontinued and he has told me that Teledyne are hoping to continue with the MX300i, but to be on the safe side **you may be better with the MAXO2 ME.**

The price of the MX-300i, part number 0111235 is \$530 each EXW.

The price breaks for the R-17MED oxygen sensor, 0110017 are as follows:

1 = \$ 63.50 each	2 = \$ 57.15 each	3 - 10 = \$ 53.98 each	11 or more = \$ 50.80 each
-------------------	-------------------	------------------------	----------------------------

Each MX-300i is supplied with a free of charge R-17MED oxygen sensor.

The Maxtec Oxygen Monitor MaxO2 ME, part number 0111263 costs \$565 each EXW.

Each MaxO3 ME is supplied with a free of charge 0110452 MAX-550E oxygen sensor. The price breaks for these sensors separately are as follows:

1 = \$ 130.00 each	2 = \$ 117.00 each	3-10 = \$ 110.50 each	11or more = \$ 104.00 each
--------------------	--------------------	-----------------------	----------------------------

Please see attached leaflets.

Please let me know if you would like a proforma invoice or if I can be of any further assistance.

Kind regards

Kate Griffiths

Dear Kathy

I need you to quote me ambiental oximeters with alarms, within the ones I saw on your page is the MX-300 3.5 digit teledyne cod: 011235 and the Maxtor version with alarms cod: 0111263, I know that the teledyne is going to discontinue the mx-300, so I need you to tell me what equipment you always have in stock.

Also quote me the sensors for the oximeters

Best regard.
