

DUOSCOPE™

The dual blade disposable emergency Laryngoscope

- Compact and lightweight
- Extremely easy to use
- Two blades in one
- Long life illumination
- No assembly required - instantly usable

Available in both Adult/Child or Adult/Adult dual blade configurations, the Duoscope's simplistic and functional design facilitates immediate accessibility in emergency situations.

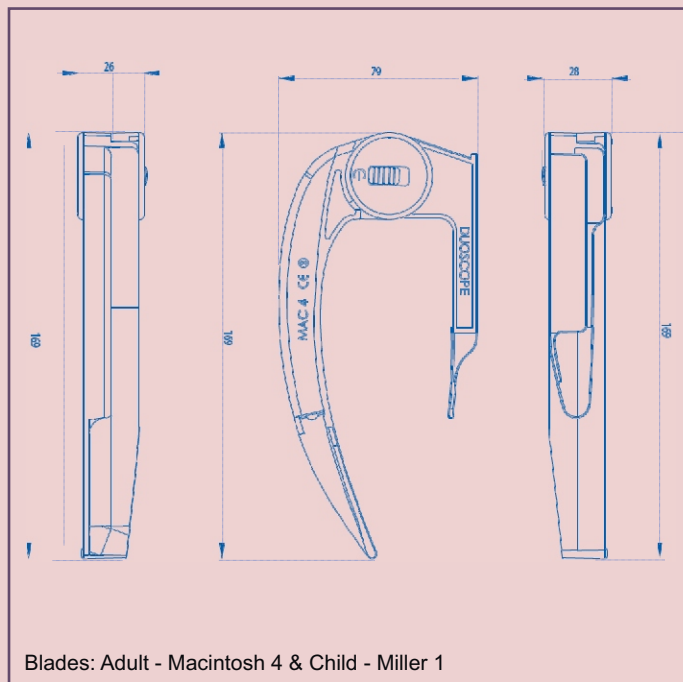

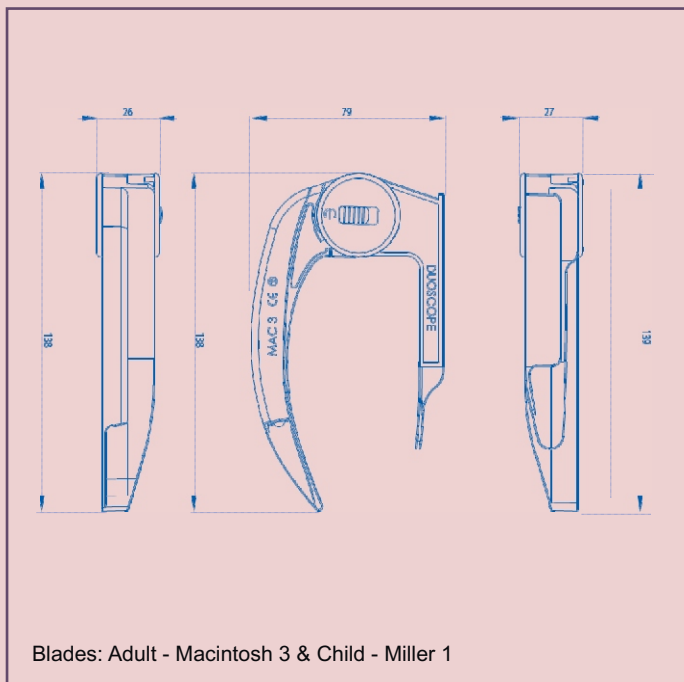

This disposable laryngoscope features two blades in one, giving the user the flexibility to choose the most appropriate blade without the inconvenience of having to carry numerous blades. There is no assembly required with the Duoscope, facilitating an instantaneous response to the need for intubation.

Once both blades of the Duoscope have been extended the snap-back safety feature secures the blades permanently in place. This unique feature allows for one blade to be utilised as a handle, but also signals to the user that the laryngoscope has been used previously, thus reducing the risk of cross-infection even further.

The Duoscope is manufactured from high quality plastic and is equipped with integrated batteries and a dual illumination light; providing over 24 hours continuous illumination.

DUOSCOPE™

The dual blade disposable emergency Laryngoscope

Specification

Available Blades MAC 3 - Macintosh Size #3 (Adult)
 MAC4 - Macintosh Size #4 (Large Adult)
 MIL1 - Miller Size #1 (Child)

LEDs x 2 Super bright pure white water clear

Aperture Opening 90°

Battery 2 x 3V Lithium Coin Cell (CR2032)

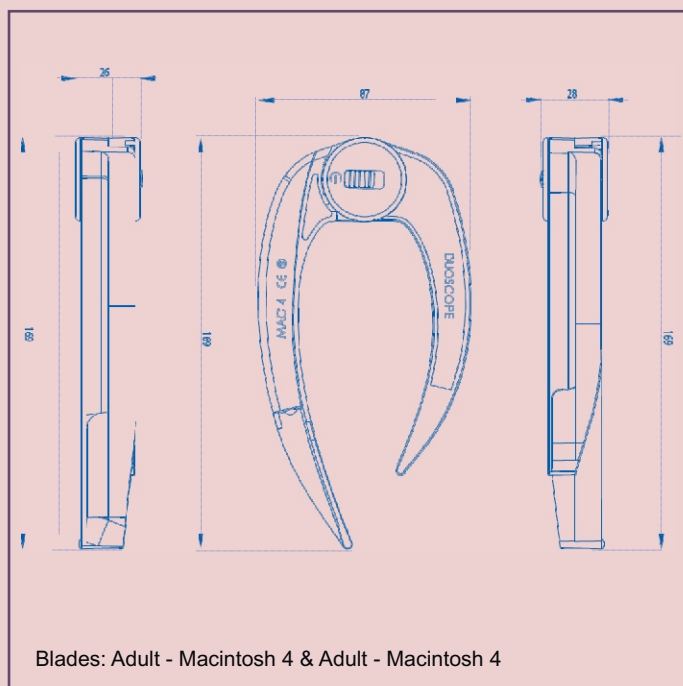

Material ABS X-17

Dimensions (blades closed) RB2000 - 139mm (H) x 27mm (D) x 79mm (W)
 RB3000 - 169mm (H) x 28mm (D) x 79mm (W)
 RB4000 - 170mm (H) x 28mm (D) x 88mm (W)

Storage Conditions - 30°C - 60°C

Part Numbers
