POSEY Pulse Oximetry Sensor Wrap

The Posey pulse oximetry sensor wrap replaces adhesive tape to secure all models of flexible optical transducers or probe sensors. The wrap holds the sensor firmly to prevent misalignment of optical components, whilst blocking out excessive ambient light. The soft foam tape-less fastener does not stick to the skin, allowing for easy application and removal; this also helps to preserve delicate skin. The model ref. 6554 is a universal design and may be cut to length.

Width: 32 mm
 Length: 133 mm
 Thickness: 6 mm
