

temperature monitoring

# 400-AC

## Autoclavable

## Temperature Probes

Autoclavable temperature probes for accurate monitoring of body surface and core temperatures

- YSI 400 Series compatible
- Autoclavable
- Latex free
- Biocompatible
- Extremely robust yet flexible

A complete range of autoclavable temperature probes for accurate measurement of body surface & core temperatures in neonates, paediatrics and adults.

The 400-AC Series includes temperature probes compatible to the YSI 400 Series as well as other leading manufacturers including Siemens, Dräger, Hewlett Packard and Philips...

# 400-AC Autoclavable Temperature Probes

|                                         |                                  |
|-----------------------------------------|----------------------------------|
| <b>Measuring principle:</b>             | NTC Thermistor                   |
| <b>Characteristic curve:</b>            | YSI 400 compatible               |
| <b>Measuring range:</b>                 | 0 - 50°C                         |
| <b>Accuracy:</b>                        | ± 0.1°C in the range of 0 - 50°C |
| <b>Total probe length (inc. cable):</b> | 280 cm                           |
