Hi Jan

The April batch is in production, but we have now delayed the May shipment.

100 March - on schedule
600 April - on schedule
600 May - **delayed until June production/shipment.**

Regards

Steve

Hi Steve,

It looks that we are catching up on the sensor situation we are for sure not sending them out the door as fast as I expected it to happen so I was thinking off asking you to puss out either the april delivery or the may delivery for one mounth means iff you dont send us sensors in april then we would get 600 in may and 600 in June.

Can we do that.

Kind regards

Jan Petersen
