0310030 loan unit

Issue ID #205056

Date Created 17/Nov/2020

Issued To: Steve Hardaker

Completed Status: Still Outstanding

Notes:

Copy Issue Main Issue #205054

Added by Steve Nixon sent to Philip Crossley

Guernsey have lost a 0310030 Tom Thumb. This is their fault, but we can't sell them a new one due to no covering CE certificate.

To get them out of a clinical need situation we could loan them a unit until they locate the missing one. To do this we need a unit that was manufactured when there was valid certification in place. SH believes that there is one in the demo cabinet, can this be tested and utilized? Can this be processed ASAP please.

Let's provide the loan unit and review the situation in say 1-2 months. If they can't find their unit we will have to see how we can resolve the situation.

For Viamed use, if needed in the future we can always produce a replacement demo unit at a later date, as it will only be used for `in-house` training.

17 Nov 2020 Steve Hardaker

Emailed to advise customer what we intend to do and to get an exact delivery address, department, contact name and number so that we can raise a FOC purchase order to supply on loan as discussed with SN.

18 Nov 2020 Steve Hardaker

Forwarded email to main office to put on an order to supply 1x 0310030 TT480 FOC to the following contact with the statement as authorized by SN:

“Supplied without charge on loan due to urgent clinical need as a replacement for a missing Tom Thumb”;

Contact delivery details:

Dawn Watterson

Risk/Governance Midwife

Loveridge Ward

Princess Elizabeth Hospital

Rue Mignot

St Andrews

Guernsey

GY6 8TW

Her contact number is 01481 725241 ext 4391

SH to follow up in a couple of months time to see whether it has been located.

03 Mar 2021 Steve Hardaker

Sent follow up email 3/2/21 to ask for an update on whether the original device was found.

09 Mar 2021 Steve Hardaker

Hazel Seymour (Operations Manager â Maternity & Paediatrics) confirmed that the missing original Tom Thumb has been looked for many times and has not been located.

The loan unit was sent on RVM127248-1 a/c 4825 at zero value.

I suggest we need to write this off and close this issue off as it's not likely to come back.

From Skype:

PC - Just had a quick look, there is a TT480 in the demo cabinet. I think there are a few Tom Thumbs in demo stock too.

SN - Can you make a list of what is available and indicate their model, condition, serial number, date of manufacture.

PC - Ok I'll have a look

Demo cab TT480 0401051 made 2013 good condition

Demo TT480 040318 made 2009 good condition

There are 4 TT490s all good condition

VMDE01 - 2008

440108 - 2009

240044 - 2005

DEMO5 - 2007

All have ancient hoses, all could be converted to TT480s

None of the above have really had any use. Been to shows and demos so some have slight signs use on the rail mounts and I think the chrome may dull a little with age but they look good

SN - Good news, thanks. Please prepare 0401051 ASAP. Then test and box up 04318 as a spare. When you have time I suggest that you convert 440108 and 240044.

PC - Ok, should I give it a quick service o it has all new O rings

SN - Yes please, it is going on loan for clinical use.

17 Nov 2020 Philip Crossley

As discussed 0401051 from 2013 is now serviced and QA`d and with Cathy

Stock level query:

It looks like 100 x 0330190 clamps have been ordered from R&L.

Historically we ordered as a MOQ of 100 and we used them for Tom Thumbs, APGAR Timer, also supplied sporadically to Mediprema.

Tom Thumbs - we now just have sales to Russia, at the moment just 6 going through production. Are there any more expected?

APGAR Timer - production stopped and more latterly we used the one piece mounting/clamp instead.

Mediprema - not sure if they will want any more clamps if they are not buying Tom Thumbs... Might be worth asking them if they have plans to order any more. Last year they purchased 2 batches of 50.

If 100 clamps are ordered then the balance will be 94, which may be too many.

My fault, but looked at history, and just followed the lowest we had ordered previously, at 7 quid a pop it wasnt worth me looking to much deeper, also with it being a universal Clamp, it can also be an ebay item.

can you see how many of these we have in stock please

12 Oct 2020 Philip Crossley

Just 12

Strange, there was plenty of them just a couple of weeks ago and we barely use them anymore. Somebody must be buying them. I've no idea why the stock count is so far out from the actual figure.

02 Nov 2020 Philip Crossley

As of today the stock of 0330212 is 112 which is correct

Proposed order from STL for 0310030

Can you please confirm quantity (35) and timescale required.

Derek: If we have sufficient notes on Intrastats/Opera we could use the same part number. If so, we can use the existing labels, the CE mark is in an ideal position to be cut off.

or

We can generate a new part number to make it absolutely clear in terms of traceability.

Ryan have you registered the existing part number or would we be free to change it.

I believe that they have ordered 6.

Suggest that you add link to sales projects. The main part to keep an eye on is the gauge, which we order from WIKA. They have been accepting orders for 50 rather than 100.

35x TT-480 for delivery this year. There is no problem changing the part number.

26 Sep 2019 Steve Nixon
Discussed with Derek, we will use the same part number but use memos to explain...

Once you obtain the order/s we can then trigger production process and order the parts. Need to allow say 6-8 weeks for the gauges.

Phil has requested another 100 x 0330212 gauge seals.

Can anyone confirm that we received PVM1088 from February? This is still showing as not received on the stock page purchase log. But it is not showing on the P.O. log or the CM pages.

Therapy Equipment say that they shipped to us on the 27th February.

Has Phil used this stock?

12 Oct 2020 Philip Crossley

I can't confirm receiving this stock, I'm not involved in the process at all, and this was shortly before lockdown.

I rarely use any of these now, just the odd repair now and then since we no longer make Tom Thumbs
Have they been sold ? Is it possible the stock isn't being reduced as the items are sold ?

I've asked Cathy to correct the stock for 0330227 to 14 and 0330230 to 0. The stock for 0330212 is correct at 112.

I really don't think Royal Victoria want 0330230x5, I think it is a mistake and they just wanted some of the small screws but saw screw in the description of this part.

30 Sep 2020 Philip Crossley

I think the 0332001 Blender overhaul kits are in stock but we are doing return to base services for both North Midx and Preston - see Service Repair Sheet 67584 as example.

We only get the 0330230 Adjustable Valve Screw by the 100 with all the other parts to make the valves up. I added the photo of it because I had to go looking for what it actually is. I see the back order but why on earth would they need these, surely they have ordered by mistake thinking it's just a small screw they could lose ?
