

EMC Rationale**Technical Rationale**

The Product is a “Direct” copy of the existing product.

Details of significant design aspects

- a. Specific Features adopted:**
The product is a screened cable with a Jack-Plug on one end and a thermistor on the other end.
- b. Component Specifications:**
See Cable Specifications
- c. Procedures used to control variants in Design & explanation of procedures used to assess if the product should be re-tested:**
- d. Details of any theoretical modelling:**
