## Grommets/Bushes

### Grommets Kit

A kit of 470 black PVC grommets in 18 different sizes suitable for use with 1.6 mm (1/16 in) thick panels. The panel hole sizes accommodated range from 4.8 to 25.4 mm with inner diameters ranging from 3.2 to 19.0 mm. The grommets are suitable for temperatures up to 70°C. The kit is supplied in an 18 compartment storage box with full dimensional information provided on a layout sheet in the lid. Ideal for use in all areas where access to grommets of various sizes is required.

## Heat Shrinkable Markers

A range of irradiated polyolefin heat shrinkable cable markers which will shrink to 33% of their supplied diameter when heated above 120°C. The legends are printed in black against a white background, thus giving clear identification even under poor lighting conditions. Temperature range -55°C to +135°C (continuous) and up to +300°C for short periods (< 5 minutes). Highly flame-retardant to ASTM B876 (burn time > 5 seconds). Three sizes are available to cover commonly encountered diameters.

## Clip On Cable Markers

Three kits which cover cable diameters from 1-9 to 3-8. Each kit contains a total of 18 wands; one wand, each of 0-9, +, -, E, R, S, T, L and N, with 30 markers on each wand.

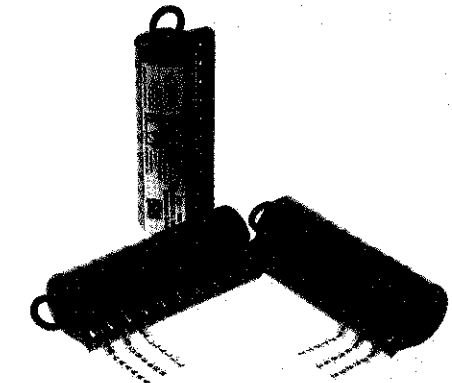

This type of clip enables in situ cables to be marked with clear interlockable markers after termination. Markers are manufactured from acetal with a working temperature range -30°C (-22°F) to 90°C (194°F) with excellent mechanical strength, abrasion resistance and high chemical resistance.

Colour: Black on white.
