Dear Shahoo

Thank you very much. I have reduced the price of the Flowsensor APC in lieu of the quantity of Flowsensor A you have requested, I hope this helps.

Please find your proforma invoice attached.

I have added the weights and dimensions in case you wish to obtain your own transportation quotations.

Please let me know if you have any questions, require any amendments or if you proceed with the payment.

Best regards

Ryan

Hi Ryan

There are ways for us to pay that you do not have problems with sanctions. Money will be transferred to your account from Dubai banks.

Because our company is a representative of a German company

And we deliver the parts in Dubai or Iraq, there is no need to send them to Iran

Only we need your letter of representation to be approved by the Iranian embassy in your country

Then send it to our address in Dubai, then our colleague send to us

Please check and let me know

But in the case of oxygen analyzers, I consider the following two models

Teledyn MX 300 ,AX 300

My sign

Maxtec MAXO2 ME

For invoice every time we confirmed
Just email to me please

Best Regards
Shahoo Eghbalee

Hi Shahoo

Yes, we are interested in you representing us, but as you know, due to the banks we can not invoice or deliver to Iran. If you are purchasing from us, then we would be happy to send enquiries from Iran to you.

The pricing of the O2 monitors has changed recently and the availability is changing daily. It would be best for us to quote you case by case on these items, please let me know which of them you are interested in or where you require them for?

If you would like us to put a proforma invoice together for you for the flow sensors, then please give me your complete delivery/ invoice details.

Best regards

Ryan

Dear Ryan

Thank you very much for your reply

I need 250 packs of each models

1_Spiro flow senso A(PC)

2_spiro flow sensor H

I meant the flow sensors

But the second question is that we can represent your company in Iran

We now represent several other companies and have a good and honest relationship with most hospitals.

Let me know if you would like to represent me

And the next thing I wanted in the previous email was the price of oxygen analyzers

Best regards
Shahoo Eghbalee

Dear Shahed

Thank you very much for your email and message via our website.

Please find our distributor pricing attached relating to our flow sensors. I have also attached some information about relating to our O2 analysers, please can you let me know what you require them for and I can suggest the most suitable model and provide you with pricing and availability.

I look forward to hearing from you and please let me know if you have any questions.

Best regards

Ryan

Subject: Ask about flow sensor

To: <sales@viamed.co.uk>

Dear sir or madam,

I hope you are enjoying a fine summer.

I wrote and asked questions about your company's products

For example, in the case of thermal and differential flow sensors as well as oxygen analyzers.

IN the first step we need to buy 1000 to 2000 pcs spirollog flow sensor, and 500 pcs deferential flow sensor, 50 pcs oxygen analyser

Please if it is possible for you let me know ,you want to cooperation with our company

If you want to cooperation , please announce price

Of course for the sanctions situations we want to send to our company in dubai ,and we will made in payment in dubai

Best Regards

Shahoo Eghbalee
