Dear Customer,

As you will be aware, we have changed our Commercial Waste Collection Service charging model from volume to weight of waste collected for both general waste and recycling.

Your monthly statement for August 2019 is overleaf. The statement details if any excess weight has been collected over your container/s weight allowance in a particular month and confirms if any excess charges apply.

Any excess weight charges will be invoiced quarterly and the invoice will be sent out separately. Please note if the excess weight charge total is less than £10.00 for a particular quarter, an invoice may not be issued. The charges will however be added to future excess weight charges incurred within the contract period. If the total of more than one quarter is or exceeds £10.00, an invoice will be issued for all excess weight charges in the financial year.

If you have any queries relating to the statement please contact 01756 700600 or email commercialwaste@cravendc.gov.uk.

Thank you for your continued custom.

Yours faithfully,
