Hi Shaun

Thank you very much. I am very well, I hope you are too.

We are still out of stock of the R-33DE sensors, I am hoping we can have them available in the next 2-3 weeks, but I do not have a confirmed date as of yet. I am very sorry for the inconvenience, these sensors are nearly always available from stock, but the pandemic has had an effect on production times of both the R-33DE and R-33S1.

You currently have another back order for 4x R-33DE, so this makes 9 in total. Do you want us to ship the R-22AT straight away or wait until all the sensors are available?

Best regards

Ryan
