Dear Anita

For sensor returns please mark the packaging with returns number **SRS67855**. Can you please provide details of quantity and the serial numbers/reported issues.

We are due to ship the June sensors next week.

Please note that we have not received any further orders from Jan. **Do you need any rebreather sensors for July, August...?** The production delivery lead time is 4-6 weeks.

I'll send your request for a 7919201 analyzer to my colleagues at Vandagraph.

We have two diving associated companies:

Vandagraph Sensor Technologies (VST) = Rebreather sensors

Vandagraph = Surface sensors and surface analyzers

Regards

Steve

Dear Steve,

Greetings from a sunny Denmark, I have a few questions from Jan

-We have some cells (as warranty), is it something about you will send us a return number?

-When can we expect the June batch of cells ?

-And finally I need an analyzer 7910201 to be send and invoiced to here as well is that possible?

Have a great day

Kind regards
