

Reliability Test Report

Customer : Blue Point

Lot No.: 0908312

Part Number: LHBU01-01

Date: 2009.08.31

Test Name: Tensile Strength

Test Purpose: Production evaluated

Sample Number: 3pcs

Test condition:

Place the intended test connection in a clamping fixture. Opposite cable to a force gauge.
Apply a controlled axial force to the assembly until the cable or connection break.
Record separation force (N).

Acceptance criteria:

Straight pull out force of cable from the connector (tensile strength>80N)

Test data:

sample1	sample2	sample3
317.0	282.4	332.2

Analysis Conclusion:

All samples passed the spec.
