Dear Mike,

Thank you for your email.

Please can you confirm that the quantities you require are packs and not pieces?

Kind regards

Sarah Walton

Subject: Re: RFQ. Blender

Dear Mike,

MAXBlend 2 - 0310291 = USD \$1850.00 EXW

We would also recommend you purchase a mounting bracket:

Blender Bracket for Rail or Pole - 0320452 = USD \$69.49 EXW

If you require hoses, please let us know what length and what gas outlets are being used in the hospitals.

Inspiration Blender - 0310200 = USD \$1548.00 EXW

This includes a choice of mounting bracket (Rail or Pole), flow meter and hoses with BS Probes. Depending on the gas outlet in the hospital, the price of the hoses may change.

We can also offer the MicroMax Blender:

1) MicroMax Lowflow Blender - part no. 5610151 = USD \$672.95 EXW

2) Maxtec Bracket Pole/Rail - 0320452 = \$69.49 EXW

3) Flowmeter options:

0-15 l/min Flowmeter (LH) - part no. 5620080 = USD \$34.75 EXW (as you are looking at the blender face, this model connects to the right side of the blender)

0-15 l/min Flowmeter (RH) - part no. 5620081 = USD \$34.75 EXW (as you are looking at the blender face, this model connects to the left side of the blender)

0-15 l/min Flowmeter (Straight) - part no. 5620082 = USD \$34.75 EXW (this model can be connect to either side if the blender, but is not as neat as the models above)

4) Flowmeter output connector - part no. 5620077 = \$3.80 EXW

5) If you require hoses, please let us know what length and what gas outlets are being used in the hospitals.

I have attached leaflets for your reference.

Kind regards

Sarah Walton
